

## TECHLOG Filter

Have you completed your Weatec application?  
If not, here is the link to the application.

[Weatec - Enrollment](#)

## Who is it for?

Techloq is a cloud-based web filter platform offering pay-as-you-go web filter for windows computers. As of September 2022 the yearly price of Techloq is \$117.99 per device. Find more information at <https://www.techloq.com>.

### Pros:

- Optional Skin Tone Masking
- Real-time Content Filter
- Multi-Userer per device

### Cons:

- No option for password bypass
- Exceptions must be reviewed by Techloq

**Note:** After testing, Techloq Filter has been approved as an acceptable category-based content filter if configured to meet the requirements set forth in the Weaverland Conference Electronic Technology Usage Guidelines. Please remember that no filter can be guaranteed to filter out all objectionable content; therefore, the Weatec Accountability Software must be installed on all devices in order to be in compliance with Weaverland Conference guidelines. The accountability software logs all web traffic, thus fostering brotherhood accountability. So even if objectionable content is missed by Techloq Filter, the content will still trigger a flag on the accountability server. Use the following configuration as a minimum; there is nothing preventing you from choosing stricter settings.

## How to Acquire

# How to Install (Windows)

Link to account setup page  
[Techlog | Internet Protection](#)

Fill in your info to create an account

Click Go to Details

The screenshot shows the first step of account creation, titled "Tell us about yourself". At the top, there is a progress bar with two steps: "1 Tell us about yourself" (active) and "2 Create your account". The form includes the following fields: "Full Name \*", "Phone Number \*" (with a dropdown for "US (+1)"), "Email Address \*", and "Password to the Portal \*". A note below the password field states: "Password is case sensitive and must be at least 8 characters." A "Go to Details" button is located at the bottom right of the form.

Select the account type

Create an Authentication Code

Be sure to remember this, you will need it to contact support, or make requests from blocked pages.

Click Create My Account

The screenshot shows the second step of account creation, titled "Specify details of your account". At the top, the progress bar shows "1 Tell us about yourself" and "2 Create your account" (active). The page includes the following elements: "Home Account" (selected) and "Corporate Account" radio buttons; a "Service Provider \*" dropdown menu set to "Techlog Retail USA"; an "Authentication Code" input field; a yellow warning box stating: "You'll need this code when contacting support, or making access requests from the block page. Make sure you remember it!"; two consent checkboxes: "I consent to you contacting me by email or SMS with information about goods and services which you feel may be of interest to me." and "I consent to you disclosing my personal data to selected third parties so that they can provide me with information about their goods or services."; and a "Create My Account" button at the bottom right.

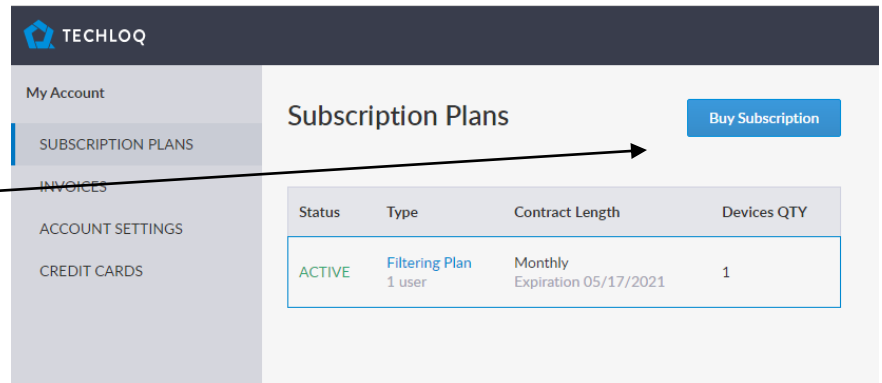

Login into <https://www.techloq.com/> using your username and password

After Login Click:  
Subscription Plans

Then Buy a Subscription

You will then have the options:  
By the Month, Quarter, or Year

This will generate a  
registration key needed in the client install

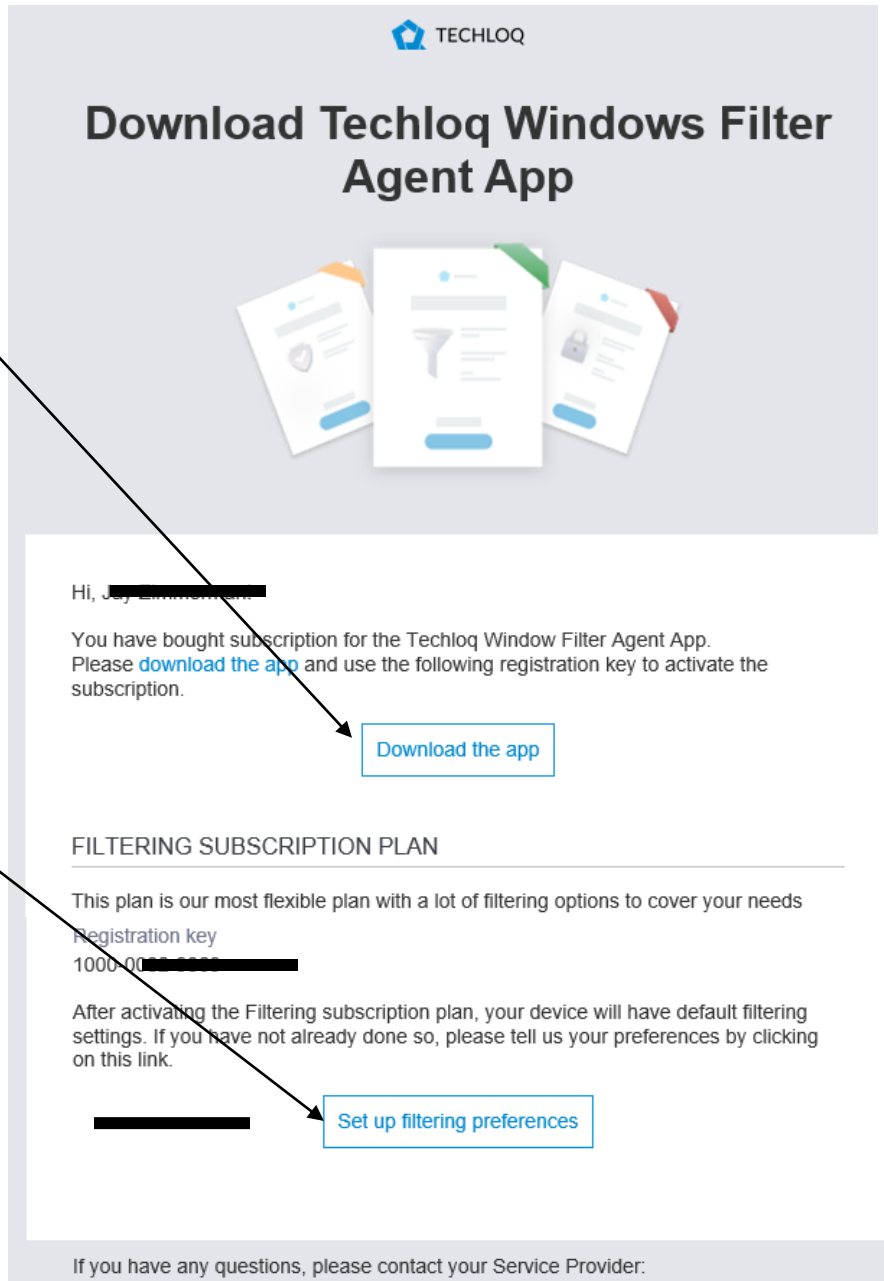

After you purchase a subscription, you will receive an email with a link to download the client to install on your windows computer.

During the install you will need to enter the registration key.

Click the [Set Up filtering Preferences](#) In the email to select the blocking options and Web site categories.

Please refer to the Weatec Guideline When setting the filter categories

If you have any questions, please contact your Service Provider.
